ANIMAL HEALTH RULES

The Fair or a designated representative(s) shall check all animals upon arrival for poor health conditions, signs of communicable disease, external parasites, any unsightly disease condition, and any wounds, open or closed, that may be contagious. All animals will be inspected before cooping in. Any animal showing evidence of disease or parasites, including lice and mites, shall be immediately removed from the Fairgrounds. **Decisions of the inspection committee are final.** After coop-in, the Fair shall have the right to enter any pen/coop to inspect an animal. Any animal found to be in an unsafe or unsightly condition will be quarantined in a designated area and then dismissed from the grounds as soon as possible.

NOTE: All Avian species must be inspected by an approved Poultry Health Inspection Technician (PHI) at the Fairs official PHI location prior to entry into the fair facility.

CALIFORNIA STATE FAIR RESIDUE AVOIDANCE PROGRAM

In an effort to increase awareness of responsibilities associated with the production of consumer-oriented products, the California State Fair requires exhibitors of market animals to sign a Medication Declaration Form. It is also required that breeding animals on medication also declare such treatment on a Medication Declaration Form. If an animal requires medical treatment while at the fairgrounds, only a licensed veterinarian will be allowed to administer any drug, chemical or feed additive. An exhibitor may choose a licensed veterinarian other than the official State Fair veterinarian, but the official State Fair veterinarian MUST be notified in advance, and he/she MUST be present. Furthermore, The Official State Fair Veterinarian, in agreement with Show Management, reserve the right to treat any animal if, in the opinion of the Official State Fair Veterinarian, it is in the best interest of the animal's health and well-being to be treated. All treatment costs are the responsibility of the exhibitor. All animals treated at the fairgrounds must submit a Medication Declaration Form. This form acknowledges the use of any substance in/on the animal for which the required withdrawal period has not completely elapsed prior to arrival at the Fair. This includes substances used per label or in an extra-label fashion. All extra-label drug usage MUST be done under the supervision of a licensed veterinarian, and their contact information is required. Any animal requiring medically necessary treatment within 48 hours of competition may need to be withdrawn from competition if hydration status, mentation or gait will be affected by the necessary treatment. The intent of the program is not to prevent medically necessary treatment, but to ensure the animal's well being and, fair competition. The decision of the Fair's committee in regards to eligibility for competition shall be final.

The California State Fair is continuing its Residue Avoidance Program and reserves the right to test any animal officially entered in any division at any time without notice, for foreign substance including but not limited to drugs, chemicals or feed additives.

Compounds tested for may include but are "not" limited to:

- Antibiotics
- Local Anesthetics
- Non-Steroidal Anti-Inflammatory Drugs
- Diuretics
- Sedatives/Tranquilizers
- Steroids/Growth Promotants

Note to Parents/Legal Guardian, Leader/Supervisor

By signing the Detailed Receipt each parent/legal guardian acknowledges that:

1. He/she has read the California State Fair Junior Livestock Competition Guide Rules (General, Livestock, and Special) and Regulations;
2. The Junior Exhibitor has owned, fed and cared for the animal(s) throughout the required ownership period. He/she has supervised the Junior Exhibitor, and the Junior Livestock animal(s) have not had any drugs, chemicals, feed additives, or other substances used on them except pursuant to the label specifications, or unless under the direction and supervision of a licensed veterinarian for therapeutic purposes. All drugs, chemicals, feed additives or other substances for which the required withdrawal period has not elapsed prior to arrival at the Fair must be declared on a Medication Declaration Form at official weigh-in;
3. He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not been tampered with in any way, including but not limited to, unethical fitting or any method altering the natural conformation of any part of the animal(s) body;
4. He/she understands the penalties for violating these General, Livestock and Special Rules and Regulations, include but are not limited to, monetary penalties, and the immediate disqualification of the Junior Exhibitor.

Residue Avoidance Policy

1. The California State Fair reserves the right to test any animal officially entered in any division at any time without notice, for any foreign substance including but not limited to drugs, chemicals or feed additives as well as DNA testing. At a minimum, some animals from the following groups will be tested: animals required to participate in the Sale of Champions (including any alternates) and; any animals suspect in terms of unusual physical appearance, demeanor or activity. As a condition precedent to accepting an entry, an entry form signed by the exhibitor, FFA (Agricultural Science) Instructor, 4-H Leader, Grange Advisor, Parent or Legal Guardian grants the California State Fair permission to test any entry.
2. Testing may be performed on any body tissue or fluid on both the live animal and the carcass.
3. Test samples collected from any animal must have zero tolerance for any identifiable or unidentifiable foreign substances including drugs (legal and illegal), chemicals of any kind or feed additives unless established as permissible by the USDA or FDA or disclosed on the Medication Declaration Form.

4. If an animal has been administered a drug that is FDA approved for its species and class, sufficient time must have passed so that the animal does not test positive for that drug upon arrival at the California State Fair. Animals must remain free and clear of all drug and chemical residues while on show grounds unless being treated by the State Fair veterinarian or a licensed veterinarian while the State Fair veterinarian is present. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal time for most approved drugs.
5. The showing of any animal that has been administered during its life any quantity of any unapproved drug, chemical or medication is strictly prohibited. Such drugs include, but are not limited to, any diuretic, unapproved growth stimulant or other unapproved medication. Unapproved means not approved by the Food and Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for slaughter animals including animals that may be destined for human consumption.
6. If an animal that has declared a medication receives an award and is eligible for the Sale of Champions, but is still within the withdrawal period of that medication then, the exhibitor shall be required to pay any boarding, transportation and administrative fees associated with the housing of livestock past the scheduled process date. Boarding fees associated with waiting for test results on animals with a known residue, are all the responsibility of the exhibitor and may require a deposit to be made prior to the auction. Fees are based on a per day cost per animal, transportation and administrative fees.
7. Animals testing positive for an unapproved foreign substance including but not limited to drugs, chemicals or feed additives, will be disqualified and declared ineligible to receive awards, premium money or sale proceeds. In addition to the disqualification and forfeiture of awards, premiums and/ or auction proceeds, the State Fair may release to the media the name of the exhibitor, leader, advisor and the name of the exhibitor's animal that was disqualified and was in violation of the Drug Residue Program. The live market animal or carcass that tests positive will immediately become the property of the State Fair, and the exhibitor may be compensated for the market value, less expenses if the animal passes inspection. The carcass of disqualified animal or poultry will be disposed of per instructions by CAHFS if disposed of before entering the food chain or by written instructions from U.S.D.A. or FDA if already in the food chain.

8. If entry is disqualified, the entry and/or the exhibitor will be declared ineligible and will not receive awards, premiums and/or any sale proceeds, further the exhibitor will be responsible for payment of all fees (including attorneys' fees), fines, and costs incurred by Cal Expo as result of the disqualification and any proceeding related to the disqualification. The owner/exhibitor and members of his/her immediate family may not be eligible to compete in subsequent California State Fair Programs. The extent and degree of future eligibility shall be determined by Fair management.
9. If foreign substance residues including drugs, chemicals or feed additives are found in tissue of carcass of animals sold through the Sale of Champions, the California State Fair will in no way be liable or responsible for condition of carcass or sale price of animals.
10. If for any reason, any part of a carcass must be removed by U.S.D.A. Inspectors, the sale price will be discounted accordingly.

Wholesome Assurance Statement

11. The use by non-veterinarians of animal drugs or other substances in any manner other than in accord with the labeling approved by the FDA is a violation of federal law.
12. Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.
13. Any food animal must not exceed FDA/EPA/USDA established tolerances for any foreign substances including drugs, pesticides, feed additives or other chemicals.
14. Violative results of residue testing are subject to investigation by the USDA and FDA for prosecution.
15. Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.

Violations

16. If a Junior Exhibitor is found in violation of any of the Livestock Show rules, he/she and his/her family may be forever barred from showing at the California State Fair.
17. **Post Mortem Examination:** The California State may require a post-mortem examination of any animal which dies at the State Fair. This will be performed by a licensed veterinarian at the expense of the exhibitor.

Notice to Junior Livestock Exhibitors

18. **Residue Avoidance test fees:** any fees related to testing any animal or

carcass as required by The California State Fair, U.S.D.A or F.D.A. or food processor will be deducted from sale proceeds of the junior exhibitor.

Policy for 2018

19. If an animal test positive on the original residue test screen, the exhibitor shall be responsible for paying for the confirmation test. If the exhibitor fails to pay or post fees for the confirmation test, the animal in question will be declared ineligible.
20. It is the policy and rule of the California State Fair that no animal which is entered for competition in the State Fair shall contain any trace residues of any substance which are not approved by the Food and Drug Administration (FDA) and/or the United States Department of Agriculture (USDA) for slaughter animals, unless disclosed on the Medication Declaration Form.
21. It is the sole responsibility of the Exhibitor to ensure that the animal is free of the prescribed drugs and substances listed on page 30-31. Extent of knowledge on the part of the Exhibitor with regards to the drugs or substance found in an animal is not relevant to any issue, and it shall not be the defense that person or persons unknown introduced the proscribed substance into the animal prior to, or at arrival, or after arrival on the State Fair property.
22. Personnel (employees and contractors) of the California State Fair, other approved departments (and their representatives) within University of California at Davis, California Polytechnic State University, San Luis Obispo and Pomona, California State University at Fresno or Chico, Modesto Junior College, University of California at Davis Veterinary Medical Teaching Hospital, FDA, USDA, California Department of Food and Agriculture, California Department of Health or any other representative approved by the California State Fair reserve the right to take urine, blood, hair and other body tissue samples from any animal or it's carcass at any time without notice, for the purpose of determining whether there is any residue of any substance found within the body of the tested animal. The exhibitor, by entering his/her animal, expressly agrees that he or she will cooperate with the person or persons charged with the responsibility of taking the sample from the animal at the time of arrival, weigh-in, during the show or any other time the animal is on the California State Fair-grounds. Failure to fully cooperate with testing procedures, and/or representatives collecting samples shall indicate a voluntary withdrawal by the Exhibitor of the animal from the competition, and result in the immediate disqualification of this project and automatic loss of participation privileges in all future California State Fair competitive events.

23. All samples shall be taken by persons designated by the California State Fair and tested in an approved Laboratory. Reasonable care will be taken with regard to maintaining the purity and identity of the sample. The only chain of custody required will be that routinely relied upon by veterinarians practicing in and around the SACRAMENTO COUNTY REGION.
24. As samples are taken, the Junior Exhibitor, a parent or legal guardian and/or a leader/supervisor shall be present to view the procedure. Upon collection of a sample, the Junior Exhibitor, and a parent or legal guardian or leader/supervisor shall provide their signatures to acknowledge that the sample was collected from the Exhibitor's animal.
25. In the event that any animal is disqualified as a result of the violation of any of the rules found within the Residue Avoidance Program, or the animal is voluntarily withdrawn from the competition as a result of failure to cooperate with the testing procedures, then the Exhibitor shall immediately return awards and/or premiums previously presented. With regard to auction premium money, it shall be the option of the individual purchasing the disqualified animal to either donate the money to the Sale of Champions for the next year's use or donate the money to the California State Fair Scholarship Program, or upon request, receive a total refund of the auction premium money paid.
26. By making entry in the California State Fair Livestock or Fur & Feathers program, the Exhibitor, a parent or both parent(s)/legal guardian(s) and project leader/supervisor agree to abide by this Residue Avoidance Program.

SHOW RULES

For clarification, the word “livestock” shall be defined as both small & large animals.

Entries

1. The State Fair Rabbit, Cavy, Poultry, Dog, and Exotic Bird Shows are open to all qualified exhibitors and all breeds and varieties as listed in this Competition Guide.
2. Entries may be refused by the show committee, as a result of enforcing these rules.
3. All fur entries must be separate paid entries and **must be** entered in their breeding class and judged. A rabbit disqualified or eliminated from regular classes may not compete in fur classes, except rabbits that are improperly entered in a class according to sex or color.
4. Entry may be made in the name of rabbit, poultry, cavy or exotic bird breeding operation or an individual, but if made in the business name, entry form **MUST** be signed by the bona fide owner. Premium checks will be issued in the owner’s name, not in the name of the business.
5. “Exhibitor” is construed to mean a person, firm, ranch, partnership, or corporation. Separate entries in the same age and sex class by individual members of the same family, firm, ranch, partnership, or corporation will **NOT** be accepted as competition when these are the only animals entered in that class.
6. No exhibitor may exhibit a market animal which has been sold through a fair livestock auction whether or not there is an actual change of ownership.
7. Any animal entered in the junior department is not eligible for competition in the senior department and vice versa with the exception of a breed specialty show where a junior show is not offered.
8. No award will be made for entries eliminated or disqualified. This includes animals entered incorrectly.

Ownership

9. Each animal entered in the open show must be owned by the exhibitor for at least 30 days prior to the opening day of the Fair.

Substitutions

10. Substitutions may be made only when the animal being substituted is the same breed, variety, sex, and age (class) as the animal being withdrawn. Substitutions may only be made by the original exhibitor. Substitutions will be made on the day of check-in. One substitution PER EXHIBITOR is permitted at no charge. Any additional substitutions will be processed after a \$5.00 per substitution charge is paid prior to judging. Substitutions will not be judged unless payment is received. Substitutions must be made in person on the day of check-in. A Special waiver will be granted to the Open poultry show for substitutions. Contact Fur & Feather Supervisor for additional information.

Fitting and Showing

11. To maintain a high degree of confidence in the livestock show, the California State Fair reserves the right to disqualify any animal(s) and the owner/exhibitor of that animal(s) that have been fitted in an unethical manner. Unethical fitting shall include any injection of gas, solid, or liquid under the skin (or mammary system) to alter the normal conformation. It shall also include any cutting or tear of the hide or underneath the hide or removal of tissue in an attempt to alter the shape of the animal. It shall also include attempts to disrupt or change normal dental development as well as dyeing or coloring the individuals which alter their natural coloration; also artificial tail heads or polls. Other specific violations include but are not limited to: liquid diets for lambs (drenching); excessive shrinking; excessive exercising; tying animals with their front feet off the ground; showing animals with their front feet off the ground; not allowing animals to eat or drink for extended periods of time; icing animals down; electric stimulation; breaking of tails; the balancing of an udder and/or teats by abnormal means; physical abuse; and any attempts to change the degree of firmness of any individual shall also be considered unethical. Artificial means of filling animals internally is prohibited. This shall also apply to violations of the California State Fair's residue avoidance program.
12. Unethical fitting will be deemed to consist of any method altering the natural confirmation of any part of the animal's body, including, but not limited to, airing, injections, applying artificial material (inorganic or organic) to increase or decrease hair length or density, operations or other tampering with the animal's natural confirmation, use of organic or inorganic products to change the natural condition of internal or external tissue, using any product or device that may act as an irritant or counter-irritant or the illegal or improper use of drugs.
